## **Editorial Note**

Kumarwarti Multiple Campus was established at the initiative of intellectuals, social activists, teachers, traders etc. belonging to the then 37 village Panchayats of Nawalpur belt, (the Eastern part of Nawalparasi and Dawanne hill) with a view to imparting higher education at an affordable cost for people in general. On this auspicious occasion, we cannot forget late **Pandit Krishna Sharan Dumre** who did a yeoman's job by organizing a Dhana Dhannyanchal Yagya and thus paved a suitable financial ground by collecting donations to establish a higher educational institution named Kumarwarti Banijya Campus. Established with TU affiliation to conduct proficiency certificate level in management (I.Com), the institution has been conducting Bachelor level programmes in humanities (Three Years), Education and management (Four Years) including +2 Programme, Masters Level in MA (Sociology), Education (Nepali and Health) and One year BEd Programme. The institution has been formally publishing its annual report since the 31<sup>st</sup> anniversary cum guardians' day.

Selected in the second higher education reform project (HERP) by the university grants commission (UGC), the institution has been trying its best to obtain quality assurance and accreditation (QAA) certificate by concentrating its attention on the enhancement of its academic activities and physical infrastructure with full hope of obtaining full support from all the concerned stakeholders and authorities.

Effort has been made in the report to include and assess the academic achievement of academic year 2074/075 including the ones of preceding two academic years 2072/2073 and 2073/074. Vote of thanks goes to chairperson of CMC and its executive members, co-ordinator of different sub-committees and its members, campus chief, assistant campus chief, faculty heads, teachers and their professional associations, officers of different and students union.

In course of preparing this report, if any errors are noticed and pointed out they would be duly corrected in the future issue of similar work.

## **1. Background:**

Established with an objective of providing higher education at an affordable fee by people of grass root level, KMC was established at the initiative of the then 37 village panchyats of Nawalpur belt (now an autonomous district), the local social activists, intellectuals, teachers, traders and peasants as Kumarwanti Vanijya Campus with TU affiliation for conducting classes at the PCL level (I.Com). Late Pandit Krishna Sharan Dumre played a sterling role by organizing a Dhana Dhanyanchal Yagya to raise a fund for financial support to pay for security and to get affiliation from Tribhuvan University. Thus a public funded and owned higher educational institution came into existence. Conceived as a commerce campus, the institution has authenticated itself as a multiple campus successfully conducting BA, BED, BBS, MA, MED, MBS and +2 programmes in recent time.

Selected in the second HERP the institution has been trying its best to impart quality education to wards of people in general at an affordable cost as required by the changing perspectives of time. Without any fear of controversy, it can be boldly asserted that Kumarwanti Banijya Campus (now KMC) played a decisive role in laying the stone of development in Kawasoti because with its inception in 2045, many government and non-governmental offices were established which in recent time has resulted in assuming the head quarter of Nawalpur district.

## **2. Academic Status**

Following are the programmes conducted in this institution:

2.1. Grade XI and XII class under the Affiliation of National Examination Board(NEB).

2.2. TU Affiliated programmes

### **A) Bachelors Level**

- i. 4 years BBS and Bed
- ii. 4 year BA
- ii 1 year BEd

## **B) Post Graduation Programme in semester:**

- i) MBS
- ii) MA (Sociology)
- iii) MEd (Nepali and Health)

### **3. Physical Infrastructure**

**a) Landed property:** The institution has been enjoying ownership over 01-00-00 land issued in the name of the then punarvas (Rehabilitation) company now known as Gramin Aawash company (Rehabilitation coy) and barbed wire fenced 04-15-00 land which was presented for the purpose of using it as central plot by community. Thus the institution has 05-15-00 of land in its ownership though the land has not been yet registered in its name because the institution has to pay a certain amount of money as per unit price (as per kathha price) fixed by the government but unfortunately the institution is unable to do so thanks to the lack of adequate fund. So it is expecting from the political parties to provide it free of cost on the basis of its occupancy from the last 31 years and its use for community in general.

## **6. Social Aspect and Geographical Situation:**

KMC is situated to the east of Bardghat and Susta in the center of Nawalparasi belt at Kawasoti, now serving the purpose of head quarter of Nawalparasi district. Situated on the Mahendra Highway some 32 k.m. west of Narayangarh, Syangja, Tanahun and Chitwan are its neighboring district from where students come to study here. Brahmin, Chhetris Magars, Tharus, Gurungs, Newars, Giris, Puris are some of the dominant castes that inhabit this belt including such marginalized group as Bote, Majhis, Mushahars, Kumals and depressed castes as Kamis, Damais, Sarkis etc. Agriculture, trade and service in both government and non-government sectors are the occupations people are engaged in this district. Nawalparasi, surrounded by Narayani River and Chitawan National park in the south and Mahabharat Mountain Range in the North, is famous for its spiritual, social and cultural identity with tremendous tourism potentiality.

## **7. Strengths:**

- Sufficient Physical infrastructure facilities with a spacious playground.
- Skilled and experienced teaching and non-teaching staffs.
- Sufficient library facilities.
- Well recognized in the district because of its being first higher educational institution in the district.
- Well planned separation between the academic and the administrative units to ensure maximum transparency.
- The work of software networking in account section, library and administrative section is underway.
- Separate faculty wise work station has been created to ensure prompt service to the stakeholders.
- Regular conduction and timely publication of internal exam result.
- Establishment of research orientation unit to publish research articles and report is underway.

## **8. Weakness**

- Difficulty in financial management; fees paid by students being the main source of income.
- The mushroom growth in the number of campuses because of the random distribution of affiliation by TU under political pressure has created the problem of reducing the number of students.
- Lack of job oriented and technical subjects because of the emphasis on traditional or theoretical subjects.
- The risk of drainage of skilled manpower because of the non-guarantee of service and facility for teachers and non-teachers.
- Lack of dignity and identity of teachers and non-teachers working at such public institutions.
- Lack of interest in students due to the maximum laxity in the execution of academic calendar published by TU resulting in the untimely completion of courses, conduction of exams and publication of results.
- Financially unable to pay for the latest teaching and learning method gadgets.
- Delay in the management and utilizations of institutional resources to ensure the permanent sources of income.

## **10. Feasibility:**

- i. The institution has been selected in the second Higher Education Reform Project (HERP) which has paved the way for QAA in near future.
- ii. To prioritize technical education, proposal for granting affiliation form CTEVT has already been submitted and from Shrawan 2075 B.S. technical classes in Diploma in Civil Engineering, Diploma in Plant Science and Diploma in Social Mobilizer are likely to be commenced.

- iii. In its quest for the permanent source of income for the institution the work of constructing 21 commercial shutters to the east of the main gate is in progress.
- iv. Provision of training and study for both teachers and officials will be made to enhance their skill.
- v. Management will be made of modern learning and teaching method in the class room through computer, laptop and projectors
- vi. Additions to subject in gradation and post gradation facilities will be effected.
- vii. In view of the proficiency of teachers and other officials/personnel, provision of awarding and rewarding will be made

The aforesaid programmes will surely help the institution obtain its access to technical education. The institution cordially expects financial support from all quarters-both government and non-government.
